

WINDOWS 10

# UPGRADE PROMOTION

NANOSCIENCE

Microsoft has announced end of support for Windows 7 on January 14th 2020

Oxford Instruments NanoScience are pleased to offer **Triton™** customers a seamless transition to Windows 10 Pro 64 bit via a fully configured and supported PC upgrade with the latest available version of **Triton** software.

For a limited period, we will be offering all new **Triton** and **TritonXL** Service Support Plan customers a discounted or free Windows 10 PC when placing an order for any eligible **Triton** and **TritonXL** Support Plans.

## Features

- Intel core i5 processor
- 8 GB RAM
- 500 GB Storage
- Industrial grade motherboard
- Windows 10 Pro 64 bit Operating System installed
- Latest **Triton** software version installed
- Factory configuration registry files installed
- All hardware drivers pre-installed
- National Instrument DAQ card and drivers pre-installed
- PC Rack mounting bracket included
- 1 Year PC warranty or for the duration of any new Service Support Plan contract purchased during the promotional period

## Benefits

- New Windows 10 PC with a larger memory and hard drive, providing optimal processing speed and file space
- Latest security features including Security Boot
- Easy plug and play upgrade, with no downtime required, with configuration and services support included<sup>1</sup>

<sup>1</sup> Oxford Instruments only guarantees support on systems with PCs supplied and configured by OI. An original Windows 7 supplied PC which is then self-upgraded to W10 is not an OI supported configuration. Service engineer labour will be charged additionally to the W10 upgrade price if required.
